

JOB DESCRIPTION

Job Title	Asset Manager (Permanent – 6 month probation)
Department	Asset Management
Reports to	Vice president – Asset Management
Location	Dublin, Rathcoole
Start Date	22 nd August 2021

Company Profile

EirTrade Aviation Ireland Limited is an aviation asset trading and management company. Founded in 2010, EirTrade provides specialist services to the airline and aircraft leasing community worldwide.

With operations in Ireland and the US, EirTrade’s role is to optimise Client Asset Value through a variety of services, including:

- Technical Storage
- Consignment Programs
- Technical Services – Back to Birth & Current Market Asset Valuations
- Engine, Aircraft and Parts Trading
- Aircraft Storage and Disassembly
- End of Life Program Management

Job Summary

The Asset Manager will be primarily focused on performing analysis of the aviation assets under management, analysing financial returns, providing in-depth KPI reports & managing relationships with both key internal & external stakeholders.

The successful candidate will be a self-starter, who is eager to build relationships across the business, collaborating with colleagues across Asset Management, Finance, Sales, Operations, and other support & control functions. The successful candidate will be exposed to all aspects of the asset management business and will play an important role in ensuring the oversight and governance framework is implemented and maintained.

Responsibilities

- Prepare day-to-day and monthly information in line with agreed processes of the Asset Management division
- Ability to create and develop complex excel models
- Monitor assets under management and project cash flows
- Lead the valuation of prospective and active commercial projects
- Update models and templates based on technical and market developments
- Maintain the data base of valuations and develop search criteria and reports
- Present summary findings and recommendations to the company
- Assist the company in formatting documentation for Directors, Shareholders, and Investors
- Provide clients with valuations of engines and aircraft

- Work within a multidisciplinary team
- Ad hoc duties as required within the company
- System / process improvements

What we are looking for

- Qualified Accountant or Chartered Financial Analyst holder will be a significant advantage
- Third level degree in Business or Mathematics or a related field ideally.
- At least five years' experience in a similar asset/portfolio role within the banking/financial/aviation/real estate services sector.
- Advanced proficiency in MS Excel, including advanced formulas, pivot tables, look-ups etc
- Excellent numerical ability and attention to detail
- Proven ability to manage multiple tasks and meet agreed deadlines
- Excellent communication skills and a team player
- Knowledge of Quantum Control system an advantage
- Proficiency in MS PowerPoint an advantage
- Past experience of working with and managing data bases
- High level data management capability including designing database architecture and data mining strategies
- Ability to relate complex data in an easily understandable manner
- Experience in the aviation industry is desired but not essential

What you will get in return

- A competitive remuneration package
- Collaborate with senior executives and board members
- A collaborate and forward-thinking working environment
- Ongoing training and professional development
- Opportunities to learn in an exciting industry with an expanding organisation
